(By Associated Press)  
Washington, Feb. 26.—President Wilson plans to go to the capital today if his engagements permit, to meet senators and discuss the legislative situation. The President desires prompt action at this session on appropriation bills, the oil leasing and water power bills, the employment service and Secretary Lane's bill to appropriate \$100,000,000 for the reclamation of lands to be opened to soldiers and sailors. The President decided to go to the capital in preference to calling members of Congress away from their duties to see him at the White House.

He plans to do everything possible to aid the passage of imperative legislation in the few remaining days now that he has determined not to call an extraordinary session until after his return from Europe which probably will not be earlier than June 1. An official denial was made today of reports that he desired a vote of approval for the principle of a league of nations. It was pointed out that the league was a constituent part of the peace treaty which would come up for ratification at the next session. He is said to be anxious to make another public address before returning to Europe, but it is not certain that he will have the time as he sails March 5.

A Lawrence woman shopping in Boston tried on a coat at a store and kept it on some time, but finally concluded that it was not exactly what she wanted. Some time after leaving the store she missed her pocketbook and went back, but although the clerk hunted with her everywhere they could not find it. Two weeks afterward, in another store in Boston, she tried on a second coat, very much like the first. Unconsciously putting her hands in the pockets, in one of them she found the pocketbook.

## TUBERCULOSIS AMONG OUR SOLDIERS

Twenty-seven cases of tuberculosis among New Hampshire soldiers returned from camps in this country have already been reported to the State Board of Health, many of them being under treatment now at sanatoria. When the boys are back from overseas a considerable number of cases of tuberculosis will be found among them. Dr. Charles Duncan, secretary of the state board, says that these cases will be supported by the United States government and it will be possible to have them treated in New Hampshire if the state is furnished with beds for them. Soldiers invaded by tuberculosis will be happier and respond to treatment more readily if they can be near their own homes in their home state. A new infirmary building at Glencliff and more money to use at Fremont and the legislature would help to take care of this situation which confronts us. Tuberculosis in the state, Dr. Duncan illustrated by conditions in Manchester, the largest city. He said, "There are over 1300 cases in Manchester. Only a few of these can be placed in hospital beds so there are many open cases, dangerous to the public health. These cases mean over 1300 exposures in the families, none of which receive any advice as to the danger of infection except through clinics and nurses." Dr. Duncan feels that the passage of the nursing bill would be a great help in the location of tuberculosis cases through the registration of diseased by nurses.

Rev. Dr. Thomas Chalmers, formerly secretary of the New Hampshire Association for the Prevention of Tuberculosis, says "The victory over tuberculosis depends upon preventing its spread. It is more important to isolate the coughing consumptive to prevent his contaminating others than to undertake the cure of afflicted cases, though both should be aimed at. I have always felt that the chief purpose in anti-tuberculosis effort should be to provide care for the advanced case. It is the advanced case which spreads the disease. It is the claim of the state of Massachusetts that any person in need of sanatorium treatment and unable to pay for such treatment can have it at the hands of the state. That has not been the case in New Hampshire by a long distance, but I have confidence that the good old Granite State is going to do her duty." At present, accommodations in the state are so few that patients are crowded out to make room for others waiting for admission, and on this account patients relapse who would have been permanently benefited if they could have received treatment a few months or even weeks longer.

## FISH STRIKE OFF, LOWER PRICES DUE

The "fish strike" in Boston was settled today by agreement between the Fishermen's Union and the Boston Fish Commission. The association and the Boston Fish Commission Company compromised. The fishermen and the Boston Fish Commission were granted some of their demands; the others were left to the war labor board. The end of the strike releases eight large steam trawlers which together should catch enough fish out of Boston to reduce materially the cost of fish to the consumer. The association demanded a flat wage of \$125 a month and 4 per cent of the gross receipts of a catch for the masters, \$100 a month and 3 per cent of receipts for the mates. The compromise was the specified salaries, but for 3 and 2 per cent of receipts, respectively. The matter of the additional 1 per cent is left for the war labor board to settle.

## GIRLS! BEAUTIFY YOUR HAIR AND STOP DANDRUFF

Hair becomes charming, wavy lustrous and thick in few moments.

Every bit of dandruff disappears and hair stops coming out.

For a few cents you can save your hair. In less than ten minutes you can double its beauty. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and charming as a young girl's after applying some Danderine. Also try this—moisten a cloth with a little Danderine and carefully draw it through your hair taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair Danderine dissolves every particle of dandruff; cleanses, purifies and brightens the scalp, forever stopping itching and falling hair, but what will please you most will be after a few weeks' use, when you see new hair—fine and downy at first—yes—but really now hair growing all over the scalp. If you care for pretty, soft hair, and lots of it, surely get a small bottle of Danderine from any drug store or toilet counter and just try it.

## PORTO RICAN TOBACCO WORKERS STRIKE

San Juan, P. R., Jan. 25, (by mail).—With the Porto Rican American Tobacco Company desiring there is a strike of labor in their factories, and the workers contending that the company has declared a lockout against them, there are 12,000 tobacco workers at present unemployed in the island.

The position is an anomalous one for both the company and workers assert they did not begin the conflict and about the only definite available in that the factories are not working.

Before the holidays the workers were offered a bonus of 15 per cent to be paid from the profits of the company in lieu of a flat wage increase. This was rejected on the ground that a bonus at the end of the year would not meet the existing cost of living. The factories have been closed since December 21, when the working agreement which had been in force for a year expired.

Ricardo Martinez, president of the workers' committee, says he looks for the longest strike in the history of the industry in Porto Rico, and that he does not expect to see the factories opened for a year.

Of the little workers approximately 1,000 are cigar makers and there are an equal number of strippers and other employees, many of them women.

SAY RUSSIANS DO NOT TRY TO HELP THEMSELVES

Vladivostok, Feb. 25.—Intelligent Russians are criticized by the Dairekya Okraina for their alleged failure to help themselves in their misfortunes. "Newspapers are attacking the Allies," the paper says, "reproaching them for a lack of active assistance."

"Perhaps the Allies have not taken all the measures desirable from the Russian point of view, but before reproaching them we must in fairness ask, what have the Russian citizens themselves, especially the intelligentsia, done for their own defense and for their own interests? Are the citizens ready to sacrifice even a share of their own interests for the common cause? With words they are ready to do everything but they prove nothing by deeds. Even the privileged class does not participate in the city elections."

"Look around! What is going on? Cafes are crowded with young men who could have served their motherland. There is only talk of profits. Everyone is engaged in speculation. The majority are engaged in their own affairs and have no time for the common cause."

The Czechoslovak asked the Russians to subscribe a loan of 5,000,000 rubles. The subscriptions covered only 500,000, and all this for Czechoslovak thanks to whom half the Siberian intelligentsia were saved from the Bolsheviks.

At the outset of the war all women

abandoned their amusements and began to make things for the soldiers. At last we have nothing similar. If we should learn that the Allies are really going to leave Russia, the majority of those who now reproach them would be the first to rush for a place on a steamship with the one aim of running away from the Bolsheviks. It is high time for the Russians to muster all their forces into a strong unit, forget their party quarrels and enter upon the restoration of a single Russian people."

## PUZZLE FAN'S DEPARTMENT

The long awaited answer to the sheep puzzle is at hand and Navy Yard Machinist has solved the riddle. We congratulate him. His letter:

Portsmouth, N. H., Feb. 21, 1919. Editor:

Here is an answer to the sheep puzzle:

To build the corral for the first 50 sheep the man takes 102 barrels for each side and sets a barrel in at each end, making a total of 206 barrels. When he gets the next fifty sheep he moves out one side and sets in a barrel at each end, thereby using 2 barrels to enlarge the corral for the last fifty.

NAVY YARD MACHINIST.

Here are two puzzles received a few days ago that will take some figuring to solve. They are the most complicated questions to date and all the answers that have been begging for hard problems should be satisfied:

Portsmouth, Feb. 18, 1919.

Puzzle Editor of Portsmouth Herald: Dear Sir—Please tell the "nuts" that the shipyard have not got all of the "nut crackers." We have a few at the navy yard, in proof of which I submit the following:

1. Two hunters killed a deer and sold it by the pound in the woods. They had no proper means of weighing it, but knowing their own weight—one 100 lbs. and the other 120 lbs. they placed a rail across a fence so that it balanced with one on each end. They then exchanged places and the lighter man taking the deer in his lap, the rail again balanced. What was the weight of the deer?

2. A man went into a store and said to the proprietor, "If you will give me 1-2 as much money as I have in my pocket I will spend 1-2 of what I have." Each did as stated above and upon entering a second store the man said, "If you will give me 1-2 as much money as I have in my pocket I will spend 1-2." Each did this and the man left just 1-2 as much money as he had upon entering the first store. How much had he at first?

## GIRLS SAW PRESIDENT LOSE JOBS

Boston, Feb. 25.—Complaints of the employees, who stayed away from work Monday to see the President and observe a "holiday" in accordance with proclamation by the mayor were filed with Mayor Peters today.

The ages of 16 and 21, who were discharged this morning because they failed to report for work Monday, called on the mayor personally to protest their treatment. The girls were employed by the Hand Avery Supply Company, printers, 117 Franklin street.

The foreman in the plant, the girls said, went through their departments asking the girls who stayed out why they did not come to work. Those who said they were ill remained at work. If they admitted they stayed out to see the President and observe "President's day," they were told to quit work and get their pay.

## THIN, NERVOUS PEOPLE NEED BITRO-PHOSPHATE

Guaranteed to Put on Flesh, Healthy Flesh and to Increase Strength, Vigor and Nerve Force.

Weak, thin people—men or women—are nearly always nervous wrecks; thus conclusively proving that thinness, weakness, debility and nervousness are almost invariably due to nerve starvation. Feed your nerves and all these symptoms due to nerve starvation will disappear.

Excellent specialists state that the best nerve food is an organic phosphate known among druggists as Bitro-Phosphate, a five-grain tablet of which should be taken with each meal. Being a genuine nerve builder and not a stimulant or habit-forming drug, Bitro-Phosphate can be safely taken by the weakest and most delicate sufferer, and the results following its use are often simply astonishing.

Weak, thin people regain strength and vigor, thinness and angularity give way to plumpness and curves; sleep returns to the sleepless; confidence and cheerfulness replace debility and gloom; dull eyes become bright, and pale, sunken cheeks regain the pink glow of health. Bitro-Phosphate, the use of which is inexpensive, also wonderfully promotes the assimilation of food, so much so that many people report marked gain of weight in a few weeks, as sold in Portsmouth by D. W. Adams and most all good druggists.

CAUTION:—Although Bitro-Phosphate is unsurpassed for relieving nervousness, sleeplessness and general weakness, it should not, owing to its remarkable flesh-growing properties, be used by anyone who does not desire to put on flesh.

## SHIPYARD WORKER CHASED TO LYNN

One of the Atlantic shipyard boys (name withheld by request) made the trip to Boston to welcome the President home. His idea of a welcome was rather hazy when he left Portsmouth, but after meeting a few old friends in the club and absorbing a little of the food that cheers, ideas as to a proper celebration came in bunches.

Starting at the North Station the trip visited about every station between that point and Tremont St. Continental liberations had their effect on this fatherly gober and industrious builder of ships and when a companion suggested that a visit to Revere beach was the proper thing at that stage of the game, he assented with many complimentary remarks on the brilliancy of this inspiration.

Arriving at the beach at about ten o'clock in the evening and finding all the summer attractions dark and dreary the delegation from Portsmouth was in no wise daunted. They hunted at over Revere to find the owners of the various shelters and not meeting with success they tried the novel experiment of opening up the amusement places themselves.

A Metropolitan Park policeman, hearing the sound of rippling boards came to the conclusion that a whole lot of break was being pulled off right under his nose. The cop flew over to the spot where our heroes were amusing themselves and yelled for them to stop.

The exercise had however, worked off some of the effects of the Boston day water and the tide fled in the direction of Lynn. Pursuit by the officer only lent speed to the now thoroughly sober party and the officer could not have caught them with an eye.

The story from that out is just a run that haven was attained. From there they wandered their way via the early morning train to Portsmouth and safely from the stuff that steals a man's brains.

## AN OLD RECIPE TO DARKEN HAIR

Sage Tea and Sulphur Turns Gray, Faded Hair Dark and Glossy.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked, or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyllie's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe improved by the addition of other ingredients, at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick, and glossy and you look years younger.

Arraigned in the East Cambridge superior court, they pleaded not guilty to the charge involving the larceny of a \$12,739.67 payroll, and were ordered held in bail of \$20,000 each.

## IMMIGRATION BILL TO FAIL

Washington, Feb. 25.—The House Committee on Immigration has given up all hope of the passage at this session of Congress of its bill to prohibit immigration for the next four years. "I believe that the Immigration bill cannot be passed before March 4," said chairman Burnett today. "We shall try to pass the bill reported some time ago to deport interned alien enemies. Otherwise we would be compelled to turn those all interned aliens as soon as the peace treaty is signed."

## Wilson Has a Strong Hold.

The demonstration at Boston on the arrival of President Wilson on Monday was typical of New England for it was a reception tendered by all the states; and it showed the strong hold he has on our people. It was a purely non-partisan affair and was well handled. The landing was history-making and his reception will long live in the minds of our people. He is as popular as ever and has a strong hold upon the people. No matter whether we agree with some of his propositions or not, he is the biggest American we have today.

Prince Michel Cantacuzene of Russia, a great-grandson of General U. S. Grant, has arrived in this country and entered Harvard University. The Lenin revolution stripped him of his title and whatever there was left to go with it, and he is known among his classmates as plain "Mike." What changes the whirligig of time does bring about, to be sure.

The small attendance at the hearing recently held here by the Portsmouth delegation to the Legislature on bills affecting the city would indicate a lack of interest in matters demanding serious attention. Shirking of public duties and responsibilities and damning the consequences is altogether too common a habit in this country.

Speaker Charles W. Tobey of the New Hampshire House says, if correctly reported: "The Ten Commandments were written a good many years ago and I would not criticize them. But we are living in a different age." There is much to indicate that such is the attitude of many people toward the whole Bible.

The ice harvest is in full swing on the Kennebec River in Maine and in other places where there is ice to be had. The mildness of the winter has shortened the crop to a considerable extent, yet there will probably be an adequate supply. But prices will be liable to remind consumers of war conditions.

The Welcome Home service at the Colonial Theatre Sunday afternoon was worthy of the people of the city and the brave men who have returned from the service. Credit is due the War Camp Community Service and all who aided in making the event the pronounced success that it was.

Tut! tut! Politics in the pulpit is always more or less dangerous, and what will the people say when they read that in an address at Portland, Me., Sunday night a Massachusetts clergyman spoke of "such peanut brains as those of Lodge, Knox and Poindexter?"

Two bills have been introduced in Congress for the repeal of the daylight saving law. But from another source comes the announcement that the law must be retained and that war gardening must be kept up vigorously in order to "feed the world."

Personal liberty has not been entirely eliminated in this country, as will be attested by the Nashua police, who have been informed that they may use tobacco and gum in the station house after supper, "providing they do so with discretion."

The opening of the Boston and Maine freight house an hour earlier in the morning will be appreciated by many Portsmouth business men, whether the change was or was not made for the purpose of saving daylight.

President Wilson's latest grandson arrived just in time to help welcome home his distinguished ancestor. What the greeting lacked in intelligibility was doubtless compensated for by vociferousness.

Portsmouth would like a few war relics for her parks, and has certainly done enough war work to entitle her to recognition when the captured German guns are being passed around.

In Michigan a woman has been nominated for member of the State Board of Agriculture. Well, there are some women who know as much about agriculture as some men do.

Farewell to the shortest month of the year! It will be gratefully remembered as an exceptionally moderate and pleasant February.

The militant suffragists may be interested to know that the women of Sweden stand solidly with President Wilson.

## KITTERY HOMEBREAKER SENTENCED

In the Kittery court on Tuesday evening, Charles O. Boothby, the 17-year old boy, pleaded guilty to two additional breaks in Kittery, the new cases against him being for entering the summer residence of Mrs. Marion P. Wendall at the Intervene, and for the break at the summer home of Manning Emery, Esq., near the Ward estate.

The boy also confessed in court that he had entered at least three houses on Gerrish Island, and four more at Kittery, all within the past two weeks, as he said.

He was questioned at some length by Judge Shaw about his motive in destroying the contents of the houses, but made no particular answer to the questions.

The boy's family came to Kittery about a year ago from Rockport, Mass. He was expelled from school recently, for his conduct toward his teacher.

The boy was ordered to furnish sureties in the sum of \$500 each on the three cases on which he had been arraigned; and was taken to jail this morning by Officer Harry M. Tobey.

The Kittery boy, who was implicated with Boothby, was also ordered to appear at the May term of the Supreme Judicial court at Alfred, but was paroled in the custody of the deputy sheriff until further orders, and is to report to the officer regularly in the meantime.

## EDITORIAL COMMENT

 (From the Springfield Republican)  
 "Radical" boys, speakers of La Follette and pamphlets," are read by New York school boys until they are well versed in doctrine antagonistic to American institutions. Dr. Thibault, an assistant superintendent, finds, he suggests a course in economics that will prove to them the untruth of what they read. Perhaps the La Follette investigating committee of the United States Senate could contribute some of its material that it didn't use.

Clemenceau Warning  
 (From the New York Tribune)  
 Lincoln died because the abnormal mind of J. Wilkes Booth was persuaded he was a tyrant. McKinley was stricken on his knee because Czolgosz believed what yellow journalists told him. Clemenceau is on a bed of pain because a man was stimulated into action by poison distilled from the false charge that the great peace-maker was an imperialistic friend of war.

As always, seed produces after its kind. Lying propagandists have gone about insinuating a great falsehood—insinuating that some men at the Paris conference were holy and others unholy. Clemenceau is a victim of a foul and treacherous innuendo. It is not strange a crazed brain was fired with impulse to explode.

The warning is written very large. Let not those who would push on their own ideas engage further in breeding distrust of nations or of the great leaders of a just cause who have served humanity if ever it has been served. The act that a revolver sounds as a bomb explodes the excuse that no such result was expected may not be accepted.

## RUSSIANS ARE ROBBED IN DAYLIGHT

Odessa, Feb. 25.—Police protection by the Russians in Odessa is so ineffective that street robbery at the present point are frequent after dusk and by night passed without consideration. Armed bands have been so bold that they have attacked business houses in daylight. French troops, however, are taking command of the situation by organizing patrols and the Russian government has proclaimed martial law.

At Odessa, military reported at Kiev and other Ukrainian cities, agitators are discussing the seizure of power and the creation of a Ukrainian state. It is declared that 55 per cent of the Kiev Soviet are Communists.

Those most competent to judge the Ukrainian situation from the standpoint of helping Bolshevik anarchy in the land urge Allied intervention pending the organization of the national elements to recover from the stunning blows of the past year. Allied counsel in the settlement of Asprarian and other problems would be invaluable.

Material aid in the shape of goods at fair prices would be an earnest of the Allied intentions and would go far to dispel in the eyes of peasants and workmen the Bolshevik fiction concerning the "exploiting ambitions of the Allied imperialists and capitalists." It is declared here that non-intervention would merely place Russia at the mercy of the Bolsheviks and eventually play into German hands.

Many receptions and entertainments are being given in Odessa for Allied officers and men.

An address presented by the women of Odessa to the Allied forces expresses the conviction that generous France and all the faithful Allies have not forgotten the first years of the war, when Russia "proved her valor on Prussian and Austrian battlefields and sacrificed the flower of her patriotic youth."

## WAR PRISONERS ARE CLEVER MECHANICS

London, Feb. 25. (Correspondence of The Associated Press)—Proof of the ingenuity of war prisoners to find in such escape from the depressing monotony of confinement behind the barbed wire is revealed in the Hudson Exhibition which has been opened here by Princess Patricia of Connaught. It shows the resourcefulness of the English captives in the German camp at Ruhleben and how ingenuity not only kept them healthy in mind but actually, according to physicians, saved the lives of many who would have succumbed to despair.

In the early days of the camp the craftsmen among the prisoners found materials. A bit of wood or scrap of old iron was a prize.

Among the exhibits is a dainty little machine, perfect in every detail. Before the machine could make it, he had to steal the bones from the commandant's door.

A telephone engine in running order represents eighteen weeks' labor. The raw materials were scraps of metal found in the camp's ashcan. You see pretty purses and handbags. They were made from the skins of rats caught by the prisoners.

Toward the end there was established at the camp a well-organized handicraft department with about 500

men.

When Von der Lancken arrived here he went to the German Legation, but in order to obtain food cards, he had to apply to the police station where he fared miserably in his efforts to obtain preferential treatment as a "distinguished prisoner." A chance caller there found him in line with a group of unwashed refugees, his well-groomed figure out of keeping with his surroundings. He was compelled to stand in line for two hours before his wants were attended to.

To one who remembers the time when to get a word from Von der Lancken in Brussels it was necessary to give two days' notice, after which one had to struggle through a body-guard of haughty suspicious underlings, the spectacle of this exquisite specimen of Prussian Junkerdom waiting his turn in the line and the grim proletariat afforded an excellent illustration of "the times that are changed."

CHARGED WITH OWNING THE BOOZE

William McGuinness of Portsmouth, arrested through activities of the United States Department of Justice, as a violator of the Webb-Kenyon law, it being alleged that he paid for the \$3,000 load of liquor recently confiscated by the authorities, will be arraigned in Portsmouth on Friday of this week. Eugene Figure of Man, Chester, charged with keeping an illicit still, had his hearing postponed from yesterday until Saturday.—Concord Monitor.

The completion of the work of exterminating the mosquito on the Delaware River marsh land, near the big war plants, will make available for production 5000 acres of marshland, valued at \$2,000,000. So far in the work seven genera and 21 species of mosquitoes have been found.

FROM PRINCE TO PAUPER FATE OF HUN OFFICER

The Hague, Feb. 25.—Baron Von der Lancken, formerly German Civil Governor of Belgium, sought refuge in Holland when the Germans retreated from Belgium. Von der Lancken was the man to whom the American minister, Brand Whitlock, delivered his vain appeal to spare the life of Edith Cavell, the English nurse who was executed by the Germans in October, 1918, for aiding the British, French and Belgian soldiers to escape from Belgium. Von der Lancken then told Hugh Gibson, secretary of the American Legation, that the sentence imposed by the military governor on Miss Cavell was final and that the Civil Governor could not override it.

When Von der Lancken arrived here he went to the German Legation, but in order to obtain food cards, he had to apply to the police station where he fared miserably in his efforts to obtain preferential treatment as a "distinguished prisoner." A chance caller there found him in line with a group of unwashed refugees, his well-groomed figure out of keeping with his surroundings. He was compelled to stand in line for two hours before his wants were attended to.

To one who remembers the time when to get a word from Von der Lancken in Brussels it was necessary to give two days' notice, after which one had to struggle through a body-guard of haughty suspicious underlings, the spectacle of this exquisite specimen of Prussian Junkerdom waiting his turn in the line and the grim proletariat afforded an excellent illustration of "the times that are changed."

CHARGED WITH OWNING THE BOOZE

William McGuinness of Portsmouth, arrested through activities of the United States Department of Justice, as a violator of the Webb-Kenyon law, it being alleged that he paid for the \$3,000 load of liquor recently confiscated by the authorities, will be arraigned in Portsmouth on Friday of this week. Eugene Figure of Man, Chester, charged with keeping an illicit still, had his hearing postponed from yesterday until Saturday.—Concord Monitor.

The completion of the work of exterminating the mosquito on the Delaware River marsh land, near the big war plants, will make available for production 5000 acres of marshland, valued at \$2,000,000. So far in the work seven genera and 21 species of mosquitoes have been found.

## AMERICAN DOUGHBOYS CAN JAZZ

Paris, Jan. 26.—Fresh proof of the ingenuity and resourcefulness of the American soldier in France was given the other night in at La Rochelle. An army quartet had been billed to play for the officers at the Young Men's Christian Association but there. The train failed to come, after the manner of trains in France. John J. Anderson of Dallas, Texas, the Y. M. C. A. secretary at La Rochelle, near La Rochelle, explained the matter to the audience.

Immediately an impromptu jazz quartet was organized. One performer played on two pieces of sand paper, another on a piece of tin, the third with an automobile horn, and the fourth tried to make music with a leg of a chair.

With these instruments, the jazz band "played" the popular music of the United States, to the great amusement to the audience. Heated disputes as to what they were playing occupied large place on the evening's program. They were so popular, however, that their audience refused to allow them to stop, until the regular performers arrived, and even then they continued to play, to the accompaniment of a drum, a mandolin, a violin and a piano.

A motor truck parked just line now puts the farmers of Lancaster County, Penn., in direct connection with the housewives of Philadelphia, enabling the housewives to buy at farm prices produce shipped fresh every morning.

That there were two thousand employees on the navy yard in 1861.

That the old Haynes shipyard was gone full blast in that year.

That on Feb. 26, 1861, 56 years ago today, the temperature was six below zero.

That coming to modern things that wireless telephone conversation can now be made between points 300 miles apart.

That with the aid of this device we might be able to overhear the plans regarding many delayed improvements that are needed in this city.

That bathing is not popular at La Rochelle this year because the sun is so hot it causes sunburn.

That many Portsmouth people would take a chance with Old Sol.

That it snowed in Portsmouth last night and that it rained all night in Scarborough.

That by going forty miles you can have your choice of weather sometimes.

That the Boston Globe says that we haven't weather any more, only samples.

That there's much shun for the auto drivers to deluge the poor pedestrian with.

That only a woman of strong mind can keep out of a gossiping bee.

## LISTEN! IF YOU WANT TO HELP YOURSELF

## HELP US!

### We Need Money to Pay Our Bills

We must have money. We, like all the merchants that could possibly do so, loaded up with all the merchandise we could possibly get or buy. The war was going full blast. Prices were soaring. Material was scarce and getting unobtainable at any price. So to repeat, we bought heavily. Now comes the time in which we must pay for these goods and we must sell them to get the money to pay with. We **MUST SELL**. We must get the money to pay our bills, at all costs. We cannot pick and choose; we cannot do anything but sell, and that quickly. Those people who have waited to purchase their winter clothes because the price of them was more than they cared to pay, will help us now and so help themselves. This sale is nothing but a money raising sale with us. Our loss is your gain. Everything must be sold to bring the all-powerful dollars that we must have to settle our bills with. We have marked everything in this store at the price that makes it just one half of what it is worth as a big bargain. If the weather had been seasonable not one garment we are sacrificing now would be sold a month ago, but the weather, war, money market and luck were all against us, so we must sell.

### We Will Pay Every Cent we Owe

But we must sacrifice to do it. When you must have money to settle your obligations you are willing to pay interest for it at a bank. We prefer to give you the interest in the form of the biggest bargains you ever had, to induce you to give this sale your serious attention. If you will only examine the goods and the prices that are prevailing at this sale we will not have to think again of money, for every article that was marked down from our January sale has been cut in some cases almost in half to induce you to help us on this occasion. Remember, there is a good reason for this sale; this is not a senseless "cut price sale" in which the prices are not cut except on goods that are unsalable at any price. Every article in this store was bought inside six months. Help us, and we will help you to the greatest bargains ever offered.

## SHIP YARD WORKMAN STRUCK BY TRAIN

Edward Travers employed at the Atlantic Ship Yard, was struck by a train at the depot on Tuesday evening, and received a bad scalp wound. Travers with other workman had just left the yard train and were seeking their own train when he failed to see another train backing in and he was struck. He was taken to the Portsmouth Hospital where Dr. J. H. Neal took several stitches. Travers lives in South Berwick.

## LARGE CROWD AT CHATEAU DANCE

A good sized crowd attended the dance given at Freeman's hall last

evening, the attraction being the first appearance in the city of the Chateau Orchestra of Boston. The music furnished by this snappy team drew much applause from the dancers. The dancing team of Hendricks and Hickey, exhibited some new and original steps and all their numbers were much appreciated, especially by the balcony spectators.

The management certainly made a big hit with the crowd and this orchestra should appear here again.

# The New Tax on Automobiles

It becomes effective the day after the President signs the bill. This tax applies to all new cars and is an increase of 2 per cent above the present tax, making 5 per cent the total on all new cars purchased. It does not, however, apply to the cars we now have in stock. We have on hand both touring cars and runabouts and as long as they last we will sell them without adding the new war tax.

The 5 per cent tax applies to tires, fittings, accessories, automobile parts, etc., that you might add to your new car or even for repairing your old car.

We, therefore, suggest you buy your new car now and save paying this increase in tax.

## JUDGE SENTENCED FOR CONTEMPT OF COURT

Kansas City, Mo., Feb. 25.—The surrender of former Judge J. S. Evans, to begin his jail sentence for contempt of federal court has added another chapter to the tangled history of the fight to compel a county in the Missouri hills to pay a bonded indebtedness for a railroad never constructed.

It was in 1871 that Dallas county, with other Missouri and Kansas communities, saw visions of tremendous industrial development. Strangers appeared with a "pen and paper" railroad from St. Louis to Fort Scott, Kan., and Dallas county voted \$25,000 bonds as a bonus to the promoters.

The road was never built, and Dallas county's "paramount issue" was born when the first interest payment fell due. In all political campaigns, candidates for county judgeships have cried, "We will refuse to pay the bonds." After election successful candidates have gone to the hills to avoid taking action.

The bonds eventually went to an eastern capitalist who resumed the litigation of his predecessors to collect interest. Judgments had been entered into from time to time in federal court. By 1911 the principal and accrued interest had reached \$1,023,000, payment of which would take 18 cents on every dollar of valuation in the county, it was said.

A judgment was obtained and the federal court directed the Dallas county clerk to call a special election to vote bonds to pay \$70,000 of the interest. With that action, the county clerkship was added to the list of refuse officialdom of Dallas county.

Efforts to serve summons on the jurists were redoubled. Poses of deputies from the United States Marshall's office in motor cars rolled along the trails through hills and woods. Others, disguised as fishermen and hunters, trooped through thickets and along creeks without success.

Federal Judge Van Valkenburgh issued an order of contempt against the three Dallas county judges last March. Judges Monroe Quigley and J. B. Thomas sought the safety of the woods. In the night, deputies surrounded Judge Evans' home and he was brought into Federal Court Jail.

The 19th of every month this year there are three "19's" in succession—March 19, 1919, April 19, 1919, etc. Nothing like this will happen again after Dec. 19, 1919, until Jan. 20, 1920.

Every one of the 60 inmates living in the Elliot House of the State colony at Templeton now has the influenza.

Rev. A. H. Johnson of Newton, who was to have preached as a candidate at the First Baptist church at Whitman Sunday morning, did not deliver his sermon until evening, because he took the wrong train at the South station and was carried to Providence, R. I.

Where he refused to agree to a bond for his return and was sentenced to six months in jail for contempt. The Court of Appeals recently affirmed the decision and the judge, who had been released pending decision appeared to begin serving sentence.

Judge Evans, who is now out of office and therefore has no power to act on the tax levy, was taken to Springfield, Mo. Whether he must serve his sentence is still somewhat in doubt.

Meanwhile, Dallas county is without a railroad.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jaid Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jaid Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

## EAT LESS MEAT IF BACK HURTS

Take a glass of Salts to flush Kidneys if Bladder bothers you.

Manitowish, Mich., Feb. 25.—Officers who first look into custody Mrs. Stanislaw Typhelinski on a charge of murder in connection with the disappearance 11 years ago of Sister Mary Johns from the convent at Isadore, near Traverse City, planned today to further question the woman and Fr. Andrew Henszke, pastor at Isadore a decade ago. The authorities held another warrant, but announced they were not yet prepared to serve it.

Mrs. Typhelinski, who was housekeeper for Fr. Henszke, at Isadore and came here with him in the same capacity a few years ago, was arrested after the officers had spent the entire afternoon questioning her and the priest at the parish house here.

Both emphatically denied any knowledge of how the nun, a teaching sister at the convent, met her death. They also denied any knowledge of a body having been buried beneath the basement of the church, the exhuming of which recently precipitated the present investigation.

As far as they knew, they told the officers, Sister Mary disappeared one day while out walking.

## KAHN GOING OVER TO SEE

Washington, Feb. 25.—Congressman Julius Kahn of California, who put the conservation act through Congress and who will be the next chairman of the House Committee on Military Affairs, will sail for France March 8 to collect material for the investigation of the military establishment to be made by the coming Congress.

During the three months he will be abroad he will attempt also to assemble information making it possible to formulate a plan for an Army that will command the confidence and support of the people of the United States.

"I have completed practically all of my plans for three months' trip overseas," said Mr. Kahn. "I want to inspect the various camps of debarkation to see whether the conditions are as serious as has been claimed. I want to look into conditions generally and find out from the officers and men themselves what improvements can be made in our military policy so as to prevent in the future those abuses which have occurred in this war."

## Life Sacrificed Needlessly?

"For instance it has been asserted repeatedly that we went into engagements without proper equipment and with insufficient ammunition and medical supplies. It has been stated before congressional committees that lives have been sacrificed needlessly. I have heard it said that men were sent over the top within an hour of the carrying into effect of the armistice, resulting in men being killed and wounded needlessly. I want to get a line on all of these facts so that when an investigation of the military establishment is held, if indeed, there is any investigation, I shall know where to get the necessary testimony."

"I hope to find out while overseas whether organization under the Overman act has worked out successfully during our participation in the war and what improvements, if any, are necessary. I hope to interview British officials and British army officers as to what is to be done by England for the betterment of her military establishment. I hope to see the French and Italian officials and army officers to learn what I can about their contemplated military policies."

## TO PAVE WAY FOR REPEAL OF DAYLIGHT-SAVING LAW

Washington, Feb. 25.—Measures to forestall parliamentary defeat of the rider to the Agricultural Appropriation bill proposing repeal of the daylight-saving law were taken in the Senate tonight by Chairman Gore of the Agriculture Committee. He gave notice that he would move to suspend the Senate rules, when the bill is considered, to make the daylight saving rider germane and not subject to elimination on a point of order. Adoption of the motion would require a two-thirds majority, but Senator Gore said he was confident the required vote could be obtained.

## WALSH ASKS COAST GUARD RETURN TO PRE-WAR STATUS

Washington, Feb. 25.—A resolution introduced by Representative Walsh of Massachusetts, directing the President to restore the Coast Guard Service to its pre-war status as a part of the Treasury Department, was ordered reported favorably today by the House Interstate Commerce Committee. During the war the Coast Guard was put under the Navy.
